Portfolio: sahil-kumar-webdev.vercel.app

PROFESSIONAL SUMMARY

Web Developer with hands-on agency experience building and maintaining responsive business websites, eCommerce stores, campaign pages, and interactive web interfaces across WordPress/WooCommerce, Shopify, and React. Strong in Elementor and custom WordPress development, Shopify Liquid customization, React/Vite frontend development, HTML/CSS/JavaScript, responsive UI implementation, hosting and migration tasks, and workflow automation using Google Apps Script, Google Sheets, Drive, and Klaviyo.

TECHNICAL SKILLS

CMS & eCommerce	WordPress, Elementor, Astra, WooCommerce, Dokan, Shopify, Shopify Liquid
Frontend	ReactJS, Vite, HTML5, CSS3, JavaScript, jQuery, Bootstrap, responsive design, GSAP, SVG/CSS interactions
Automation & APIs	Google Apps Script, Google Sheets, Google Drive, Klaviyo, API integration and API-output UI styling
Hosting & Deployment	Hostinger, GoDaddy, cPanel/File Manager, DNS & nameservers, WordPress migration, VPS deployment support, Nginx/PM2 exposure
Maintenance	Plugin troubleshooting, cache handling, Wordfence/WAF basics, malware cleanup basics, backup and high-CPU troubleshooting
Documentation	Admin/user guides, deployment notes, repository setup notes, website handover documentation

PROFESSIONAL EXPERIENCE

Web Developer - Frontend / Backend | Agyle Studio
Jan 2025 - Present

- Develop and maintain client websites across WordPress, WooCommerce, Shopify, and React, covering business sites, eCommerce stores, landing pages, and campaign-focused experiences.
- Convert design/Figma requirements into responsive, production-ready interfaces using Elementor, Liquid, React, HTML, CSS, JavaScript, and custom frontend styling.
- Build and customize navigation, forms, sliders/carousels, product sections, tabs, buttons, icons, hover states, animations, headers/footers, and mobile-responsive layouts.
- Customize WooCommerce and Shopify workflows, including product and inquiry flows, campaign forms, upload experiences, coupon logic, and customer follow-up integrations.
- Support hosting, domains, DNS, migrations, deployments, plugin troubleshooting, cache/security maintenance, backups, and live-site issue resolution.
- Build and support workflow automations using Google Apps Script, Sheets, Drive, and Klaviyo; prepare technical handover, admin, repository, and deployment documentation.

Frontend Developer Intern | PROPEERS
May 2024 - Oct 2024

Panchkula, Haryana

- Developed and maintained responsive user-facing webpages using HTML, CSS, JavaScript, and jQuery.
- Integrated frontend code with server-side functionality and resolved cross-browser compatibility issues.
- Implemented desktop, tablet, and mobile layouts with clean HTML/CSS aligned to frontend standards.

SELECTED PROJECTS

Coirfed - React-Based eCommerce Website

ReactJS • Vite • Responsive UI • Node/Express exposure • Nginx/PM2 deployment support

- Contributed to a React-based eCommerce website and dashboard, including frontend UI development, responsive improvements, navigation work, and project structure handling.
- Supported live deployment and production troubleshooting for coirfed.in.

Chanteur Designs - Shopify UGC & Coupon Automation

Shopify Liquid • CSS • Google Apps Script • Google Sheets/Drive • Klaviyo

- Customized Shopify campaign pages and UGC upload sections using Liquid and custom CSS.
- Built/supported automation for customer data capture, upload tracking, verification status, coupon handling, and email follow-ups through Google and Klaviyo workflows.

AuszLink - WooCommerce eCommerce Store

WordPress • WooCommerce • Elementor • Custom CSS/JavaScript

- Customized WooCommerce product pages, product presentation, responsive sections, and interactive storefront elements for an eCommerce implementation.
- Worked on product galleries, custom tabs, cart/wishlist linking, responsive styling, and live WordPress troubleshooting.

MyAstroTell - AI Astrology Platform

WordPress • Elementor/Figma implementation • CSS • Prokerala API output styling

- Implemented and refined responsive frontend layouts from design references for an astrology platform.
- Styled API-driven astrology report sections and interactive content for clearer presentation across devices.

Odontokart - Multi-Vendor Dental Marketplace

WordPress • WooCommerce • Dokan • CSS

- Customized multi-vendor marketplace layouts, product sections, and frontend UI to improve navigation and product browsing.

VoteBridge - Political Consulting Website

WordPress • HTML • CSS • JavaScript

- Built structured informational pages and interactive content areas, including a leader carousel and hover-based detail sections.

Subtle Events - Services & Booking Website

WordPress • Elementor • Contact Form 7 • Custom CSS

- Developed and refined service pages, booking/contact flows, responsive sections, popups, and client-facing website interactions.

Additional project experience: Agyle Studio website, Basantē WooCommerce, Aican WordPress, Patna Press, Anil Bhai Rakhi Wala WooCommerce, and other agency client websites.
